Brookfield Real Assets Income Fund Inc.

NYSE: RA

Investment Objective

Brookfield Real Assets Income Fund Inc. is a diversified, closed-end management investment company. The Fund's investment objective is to provide high total return, primarily through high current income and secondarily, through growth of capital. The Fund seeks to meet its investment objective by investing primarily in securities and other instruments of companies and issuers in the "real assets" asset class, which includes real estate, infrastructure, and natural resources.

The Fund commenced operations on December 5, 2016, with an initial opening net asset value of \$25.00. The Fund's opening market price on December 5, 2016, was \$22.40.

Performance data quoted represents past performance; past performance does not guarantee future results. Periods greater than 12 months are annualized. Performance results reflect the effects of leverage, which may positively impact performance in an up market and negatively impact performance in a down market. Current performance of the Fund may be lower or higher than the performance quoted. Performance data current to the most recent month end may be obtained by calling 855.777.8001. Returns are calculated by determining the percentage change in net asset value (NAV) or market price. The returns do not reflect brokerage sales charges or commissions. NAV performance calculations reflect the deduction of management fees and other fund expenses. Market price performance calculations are based on the closing price of the Fund on the New York Stock Exchange. This material is presented only to provide information and is not intended for trading purposes. Performance includes the reinvestment of income dividends and capital gains distributions. Please refer to the next pages for additional risks and disclosures.

The Fund is subject to investment risks, including the possible loss of principal invested.

Investing in the Fund will be subject to numerous investment risks incidental to the ownership and operation of “real assets.” Such risks include, among others, risks associated with general economic climates; fluctuations in interest rates and currency; availability and attractiveness of secured and unsecured financing; compliance with relevant government regulations; environmental liabilities; various uninsured or uninsurable unforeseen events; infrastructure development and construction and the ability of the relevant operating company to manage the relevant business. These risks, either individually or in combination, may cause, among other things, a reduction in income, an increase in operating costs and an increase in costs associated with investments in real assets, which may materially affect the financial position and returns of specific investments generally. The Fund may utilize leverage to seek to enhance the yield and net asset value of its common stock, as described in the Fund’s prospectus. The use of leverage may magnify the impact of changes in net asset value on the holders of shares of common stock. In addition, the cost of leverage could exceed the return on the securities acquired with the proceeds of the leverage, thereby diminishing returns to the holders of the common stock. Closed-end funds, unlike open-end funds, are not continuously offered. There is a one-time public offering and once issued, shares of closed-end funds are typically not redeemable by the Fund. Instead, investors looking to sell their shares must do so on the secondary market. Net asset value (“NAV”) is total assets less total liabilities divided by the number of shares outstanding. At the time of sale, your shares may have a market price that is above or below NAV. Shares of closed-end funds frequently trade at a market price that is below their NAV. There is no assurance that the Fund will achieve its investment objective.

Brookfield Real Assets Income Fund Inc. is advised by Brookfield Public Securities Group LLC (“PSG” or “the Firm”). Oaktree Fund Advisors, LLC is the Fund’s investment sub-adviser for the Fund’s Commercial Mortgage-Backed Securities’ (CMBS) and Residential Mortgage-Backed Securities’ (RMBS) and related assets’ credit allocation.

¹ The Fund declares and pays distributions monthly. Distributions include all distribution payments regardless of source and may include net investment income, capital gains, and/or return of capital (“ROC”). ROC should not be confused with yield or income. Final determination of a distribution’s tax character will be made on Form 1099 DIV and sent to shareholders. On a tax basis, as of March 31, 2025, the most recent available figure, the estimated components of the cumulative distributions for the fiscal year to date would include an estimated return of capital of \$0.1343 (39.74%) per share for the Fund. The actual amounts and sources for tax reporting purposes may change upon final determination of tax characteristics and may be subject to changes based on tax regulations. The Distribution Rate is subject to change and is not an indication of Fund performance. It is currently anticipated that a portion of the Fund’s distributions will likely be treated as a return of capital. A return of capital is not taxable and results in a reduction in the tax basis of a shareholder’s investment. The final tax status of the distributions may differ substantially, and will be made available to shareholders after the close of each calendar year. The proportion of distributions that are treated as taxable distributions may also vary and or increase in future years. The Fund’s Section 19a-1 Notice contains additional distribution composition information and may be obtained by visiting www.publicsecurities.brookfield.com.

² Distribution rate (NAV) is calculated by dividing the last distribution per share (annualized) by the NAV. Reflects the deduction of management fees and other fund expenses.

³ Distribution rate (market price) is calculated by dividing the last distribution per share (annualized) by the market price.

⁴ By Sector, as described in the Fund’s prospectus, the Fund’s portfolio comprised Real Estate (42.7%), Infrastructure (44.1%), Natural Resources (6.0%) and Cash & Other (7.3%). RA defines the infrastructure sector broadly. It includes, but is not limited to, the physical structures, networks and systems of transportation, energy, water and sewage, and communication. Based on the Fund’s gross assets, RA’s investments in infrastructure securities included investments in the following industries: Airports (0.2%), Communication Infrastructure (0.0%), Electricity Transmission & Distribution (0.6%), Energy Infrastructure (15.3%), Gas Utilities (0.2%), Infrastructure Services (0.5%), Integrated Utilities/Renewables (1.0%), Media (7.3%), Rail (1.1%), Telecommunication Services (7.8%), Toll Roads (0.3%), Towers (0.4%), Utilities (8.9%) and Water (0.3%). Based on gross assets of the Fund.
