

**BROOKFIELD INVESTMENT FUNDS (UCITS)
PUBLIC LIMITED COMPANY**

5 April 2024

**To the Shareholders of:
Brookfield Global Renewables and Sustainable Infrastructure UCITS Fund
("GRSI")
Brookfield Investment Funds (UCITS) plc (the "Company")**

Dear Sir/Madam:

We refer to the prospectus of the Company dated 6 December 2021 (the "**Prospectus**") and the supplement in respect of GRSI dated 21 December 2023 (the "**Supplement**").

Terms not defined in this letter shall have the meaning assigned to them in the Prospectus and/or the Supplement.

The purpose of this letter is to inform you of certain proposed changes to the Supplement in order to categorise GRSI as meeting the requirements of Article 9 of Regulation (EU) 2019/2088 of the European Parliament and of the Council of 27 November 2019 on sustainability-related disclosures in the financial services sector ("**SFDR**"). GRSI was previously categorised as meeting the requirements of Article 8 of SFDR.

A fund meeting the requirements of Article 9 of SFDR goes beyond the promotion of environmental and social characteristics and is required to have a sustainable investment objective and adhere to more stringent sustainability limits and thresholds. Brookfield Public Securities Group LLC, as investment manager for GRSI (the "**Investment Manager**") believes that the Article 9 categorisation will benefit GRSI shareholders by more closely aligning its regulatory categorisation with its sustainable investment objective, robust investment process and portfolio of sustainable investments.

Subject to the approval of the Central Bank of Ireland, GRSI's sustainable investment objective is to have a positive environmental impact with alignment to global renewables, sustainable infrastructure activities, and / or supporting the global transition towards a lower-carbon future. This will be achieved primarily through GRSI's screening processes and its investment in 'sustainable investments,' within the meaning of Article 2(17) of SFDR, which will typically be securities of global renewables and sustainable infrastructure companies. These sustainable investments, in contributing to GRSI's sustainable investment objective, will seek to mitigate the impact of fossil fuel-based infrastructure assets while providing important social benefits. GRSI will be required to exclusively invest in sustainable investments, with the exception of a small minority of investments that are to be used for liquidity and hedging purposes. The Investment Manager's 'sustainable investment' assessment framework will be summarized in the SFDR Annex III template which will be appended to the GRSI Supplement.

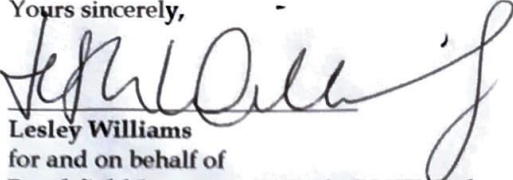

Neither we nor the Investment Manager consider the above-mentioned proposed changes to the Supplement to amount to a material change to the investment policy of GRSI. In addition, it is not expected that the change in SFDR categorisation will result in any change in GRSI's holdings.

It is expected that these changes will become effective, subject to the approval of the Central Bank of Ireland, during April 2024. Once approved, the updated Supplement will be made available on the Investment Manager's website.

Please note that this letter is for information purposes only and no action is required on your part.

Should you have any queries in respect of the above amendments or wish to receive a copy of the updated Supplement, please contact: Brookfield Public Securities Group LLC, Investor Relations, +1 (212) 549-8380, publicsecurities.enquiries@brookfield.com, or www.brookfield.com.

Yours sincerely,

Lesley Williams
for and on behalf of
